INFORMATION AT HAND: VIEWING CONTENT ON YOUR HANDHELD

Last issue we discussed capturing multiple Web pages to your handheld. In this article we'll examine how to capture other types of content to your PDA, especially that with a mix of text and graphics.

Having pre-formatted content for the PDA is great when it is available. The ability to capture content from Web pages with pro-

grams such as iSilo is another helpful option for viewing content. But are there options for other content such as Word documents, PowerPoint files, graphics, and other electronic documents you want to view?

One tool that is very helpful for capturing and viewing content on the PDA is a software package called RepliGo. RepliGo 2.0, found at <http://www.cerience.com>, is available for both Palm and Pocket PC.

The program works like many PDA viewing software packages – it consists of a

conversion component for the computer (\$ 29.95) and a RepliGo viewer component for the PDA (free). The steps to capture and con-

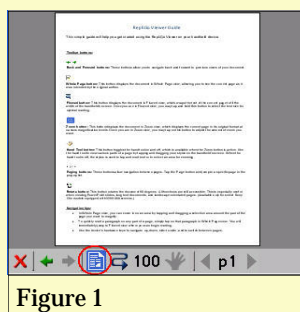

Figure 1

vert content using RepliGo are very easy. Let's say you have a PowerPoint file you would like to view on your PDA. You first open the file in PowerPoint on your computer where you've installed RepliGo. Then you click on

File, then Print. You'll see a new choice listed among your printers – that for RepliGo. Selecting this will initiate the process of converting the file for viewing on the handheld. Once conversion is complete, you sync your device and tap on the RepliGo icon to launch the program and view your file.

RepliGo content is reminiscent of a screen capture – it does a wonderful job of capturing both text and graphics from the original document. Unlike a screen capture, however, RepliGo offers different ways to view your document. You can

THE SKY'S THE LIMIT! PROGRAM INFORMATION

Please explore the universe of health sciences library issues with us in Raleigh in October. The program is shaping up to be relevant, interesting and diverse.

- Rosemary Gibson, author of *Wall of Silence: The Human Face of Medical Errors* will be the **Keynote Speaker**. A review of her book in *JAMA* (November 12,

2003) states that the authors "bring forward the missing voices; those of everyday people who have suffered devastating injuries

(Continued on page 8)

INFORMATION AT HAND

(Continued from page 1)

view an entire document in a thumbnail view (Figure 1), or zoom in to better see graphics (Figure 2). Or, you can change to a flowing view which automatically takes the text from the document and reformats it so it fits in the screen

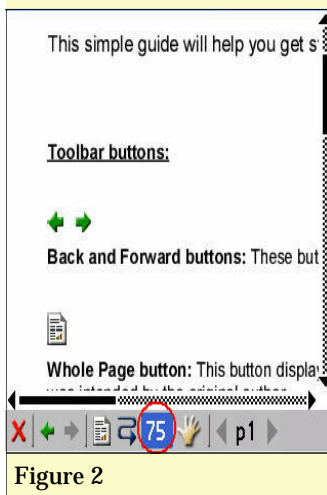

Figure 2

width of the PDA. This works well for Microsoft Word and other text documents (Figure 3).

To make things even more streamlined, RepliGo integrates itself into your Mi-

RepliGo Viewer Guide

This simple guide will help you get started using the RepliGo Viewer on your handheld device.

Toolbar buttons:

Back and Forward buttons:

These buttons allow you to navigate back and forward to previous views of your document.

Whole Page button: This button displays the document in Whole

Figure 3

crosoft products' toolbars. So, while in PowerPoint or Internet Explorer, for example, you can click the RepliGo icon in the toolbar to convert a document with a single click.

Like many products, RepliGo offers a 14 day free trial, so give it a try and see what RepliGo can do for you!

Next issue, in our final

installment, we will discuss viewing and editing documents on your PDA through programs such as Documents to Go, as well as some ideas for using these tools to share content with your patrons.

"THE SKY'S THE LIMIT"
MAC 2004 - RALEIGH, NC -

THE SKY'S THE LIMIT!

Welcome Reception

Join your MAC colleagues for an unprecedented evening of true Southern hospitality at the historic North Carolina State Capitol building. Feast on food and spirits, provided by Barbara Boney Caters, purveyor of world-class southern victuals, while listening to down home bluegrass music performed by The Tims

Family Band. The Capitol is a great place for a party since it once housed the "Third House of the Legislature", a reconstruction era whisky bar, as well as all of North Carolina's state government. The Supreme Court and the State Library moved to a newer facility in the late 1800s and the General Assembly moved to the State Legislative Building in 1963. Today,

the governor, lieutenant governor, and their immediate staff occupy offices on the first floor. The Capitol is located just a few blocks north of the Sheraton. Transportation will be provided for those who don't fancy a stroll. The party starts at 6:30 p.m. and goes until 9:00 p.m. New MAC members should arrive at 6:00 p.m. for a special New Members Re-

ception. Don't miss it!

THE SKY'S THE LIMIT!

OPEN ACCESS: PIE IN THE SKY?

PANEL DISCUSSION AT MAC 2004 IN RALEIGH

Journal publications are the engines that drive science ever since 1665, when the *Philosophical Transactions of the Royal Society* was first published in London, England. Recently however, the traditional conventions of journal publishing have been changing with the movement toward open access. The open access movement, as MLA defines it, is putting peer-reviewed scientific and scholarly literature on the Internet and making it available free of charge and free of most copyright and licensing restrictions.

Please join us at the MAC meeting in Raleigh on 14 October 2004, at 4 p.m., for an enlightening panel discussion about the move toward open access in publishing. The panel members will be:

Linda Watson, moderator and panelist. Linda has been actively engaged in scholarly communications issues over the past several years, including the subject of Open Access. She is presently Chair of the Scholarly Communications Committee of the Association of Academic Health Sciences Libraries,

a member of the MLA Task Force on Scholarly Publishing, and a member of the Open Access Working Group.

Wallace McLendon, panelist. Over the past several years Wallace has spoken on technology planning at the state, regional and national level. He is now immersed in research and teaching about the management of emerging technologies in libraries. He has made presentations on the present state and future of scholarly communication.

Brigid Hogan, Ph.D., panelist. Chair of the Department of Cell Biology at Duke University Medical Center. Dr. Hogan is considered a world leader in developmental biology and stem cell research. She was an early convert to the open-access movement, and is currently on the editorial board of, and is a contributor to, *PLoS Biology*.

NEWS FROM THE STATES

Dahlgren Memorial Library at Georgetown Univ. Medical Center appoints new Assistant Directors

Jeanne Larsen, MLS, has accepted new position at DML as Assistant Director, Reference and Research. Jeanne joined Dahlgren in 1992 as a reference librarian and has served as an Assistant Director since 1996. **Jim Kim** is now the

Assistant Director, Administration after working as Library Administrator since 2002.

Janette Shaffer, MSLIS, joined DML in 2003 as Education Services Librarian. She has since served as the Assistant Director, Education Services and now accepts the position of Assistant Director, Client Services.

Kate Finkelstein, MLIS, now works as the Assistant Director, Education Services. Kate joined DML in 2004 as Outreach Librarian.

Vani Murthy, MLS, joined Dahlgren in 2000 as Technical Services Librarian and has served as Assistant Director, Collections and Systems since 2001.

District of Columbia

She continues in that role.

Ivonne Martinez, BA, has accepted a promotion to Education Services Associate. Ivonne joined DML in 1994 as Circulation Desk Supervisor.

Virginia

The Claude Moore Health Sciences Library (CMHSL) has begun a project with the Jefferson Area Board for Aging (JABA) to help underserved, rural and low-income seniors use computers to access online health information. The project is funded by the National Network of Libraries of Medicine, and includes a partnership with SeniorNavigator.com.

This project will affect four of JABA's eleven centers in central Virginia: Scottsville Senior

Center; Nelson County Senior Center; Fluvanna Senior Center; and Mary Williams Senior Center. Library staff, including Outreach Librarian **Kelly Near** and Collection Services Acquisitions Assistant, **Tim Breeden**, will educate JABA staff and

equipped with high-speed Internet access, JABA senior clients can learn to access health information independently or receive assistance from trained, on-site JABA staff.

quarter a number of seniors will be interviewed about their capacity to find health information online and problems will be addressed. Grant activities will continue through June 30, 2005.

seniors about accessing reliable health information online, using resources like NLM's MedlinePlus, NIH's SeniorHealth, and SeniorNavigator.com. Using grant-supported computers

CMHSL staff also is using the Library's seven wireless laptops as a mobile computer classroom for small group training sessions at the senior centers. Each

The ability for seniors to use new technologies to access healthcare information will increase independence and self-efficacy, as well as allow seniors to find new opportunities for social connection and support. The CMHSL believes that teaching seniors computer skills and training them to use the Internet can become an excellent starting point to promote lifelong learning and interest in health information and disease prevention for these area citizens.

MAC RETIREES IN 2004

Iris Renner

Iris Renner retired from the federal government on January 3, 2004 after more than 32 years of service. Iris graduated from SUNY Albany School of Library and Information Science with a specialization in medical librarianship in 1971.

Iris began her career at the VA Medical Center in Albany, N.Y. where she was medical librarian from 1971 to 1978. From 1978 – 1981, Iris was Chief Librarian at the VA Medical Center in Newing-

ton, CT. In 1981, Iris moved to Tampa, Florida where she was Chief Librarian at the VA Medical Center in Tampa until 1991. From 1992 – 1997, she was a medical librarian at the National Library of Medicine, in the Medlars Management Section. From 1997 – 2003, Iris was Chief Librarian at the Washington, D.C. VA Medical Center. Throughout her career, Iris was active in local and state library groups including MAC/MLA chapters.

Iris now resides in Ocean City, Maryland where she

is thoroughly enjoying life. Her retirement activities have included traveling, working out with a personal trainer, getting married and doing some contract work with the NLM.

Nancy J. Wasson

Nancy Wasson retired from the Health Sciences Library, West Virginia University on March 31, 2004. As head of Access Services, Nancy oversaw the activities of the Circulation and Interlibrary Loan/Document Delivery units of the Library. In addition, she served as

Deputy Director of the Library for the last few years. Myrna Lowe, Associate Dean WVU Libraries, stated "Nancy has made substantial contributions to the WVU Libraries and to the library profession during the past eight and a half years. We will certainly miss her, but I know we all wish her a very Happy Retirement!"

MAC sends best wishes for wonderful retirements to our two esteemed colleagues!

THE SKY'S THE LIMIT! PROGRAM INFORMATION

from medical mistakes." The book includes information based on 75 interviews with people who were victims of medical errors and tells their stories.

- Joanne Marshall will present the **MLA Update** and lead the MLA discussion on **Electronic Resources Issues**.
- Betsy Humphreys, Associate Director for Library

Operations and Assistant Director for Health Services Research Information, NLM, will be our **NLM Update** speaker.

- Linda Watson, Associate Dean and Director of the Claude Moore Health Sciences Library, University of Virginia, will moderate the **Open Access Panel Discussion**, and will sit on the panel.

- There will be a **Diversity Panel**. The panel will provide a brief overview of the diversity issues present in health sciences libraries. 'Diversity in Recruitment' and 'Diversity in Action' will be two of the main topics. Speakers will include:

1. **Tracie D. Hall**, Director of the Office of Diversity at the Ameri-

can Library Association; and

2. **Wendy Scott**, Assistant Director for Organizational Development and Learning of the North Carolina State University Libraries.

THE SKY'S THE LIMIT! GUEST SPEAKERS

KEYNOTE ADDRESS

Rosemary Gibson, author of *Wall of Silence: The Human Face of Medical Errors* will be the Keynote Speaker at the MAC 2004 annual meeting in Raleigh. A review of her book in *JAMA* (November 12, 2003) states that the authors "bring forward the missing voices: those of everyday people who have suffered devastating injuries from medical mistakes." The book includes information based on 75 interviews with people who were victims of medical errors and tells their stories.

OPEN ACCESS: PIE IN THE SKY?

PANEL DISCUSSION AT MAC 2004 IN RALEIGH

Journal publications are the engines that have driven science since 1665, when the *Philosophical Transactions of the Royal Society* was first published in London, England. Recently however, the traditional conventions of journal publishing have been changing with the movement toward "open access." The open access movement, as MLA defines it, is putting peer-reviewed scientific and scholarly literature on the Internet and making it available free of charge and free of

most copyright and licensing restrictions.

Please join us at the MAC meeting in Raleigh on 14 October 2004, at 4 p.m., for an enlightening panel discussion about the move toward open access in publishing. The panel members will be:

Linda Watson, Associate Dean and Director of the Claude Moore Health Sciences Library, University of Virginia has been actively engaged in scholarly communications issues over the past several years, including the subject of Open Access. She is presently Chair of the Scholarly Communications Committee of the Association of

Academic Health Sciences Libraries, a member of the MLA Task Force on Scholarly Publishing, and a member of the Open Access Working Group. She will serve as moderator for this panel discussion.

Wallace McLendon, Associate Director for Library Services, Health Sciences Library, University of North Carolina at Chapel Hill, who has spoken on technology planning at the state, regional and national level. He is now immersed in research and teaching about the management of emerging technologies in libraries.

(Continued on page 9)

(Continued from page 8)

He has made presentations on the present state and future of scholarly communications.

Brigid Hogan, Ph.D., Chair of the Department of Cell Biology at Duke University Medical Center is considered a world leader in developmental biology and stem cell research. She was an early convert to the open-access movement, and is currently on the editorial board of, and a contributor to, *PLoS Biology*.

DIVERSITY PANEL

The panel will provide a

brief overview of the diversity issues present in health sciences libraries. 'Diversity in Recruitment' and 'Diversity in Action' will be two of the main topics. Speakers for the Diversity Panel will be:

Tracie D. Hall, Director of the Office of Diversity at the American Library Association.

Wendy Scott, Assistant Director for Organizational Development and Learning for North Carolina State University Libraries.

Jacqueline B. Ramseur, Medical Librarian at CaroMont Health-Gaston

Memorial Hospital in Gastonia, NC.

MLA UPDATE

Joanne Gard Marshall, MLA President 2004/05 and Alumni Distinguished Professor, School of Information & Library Science, University of North Carolina at Chapel Hill, will present the MLA Update and lead the MLA discussion on Electronic Resources Issues. Joining Joanne for the discussion on Electronic Resources Issues will be: **Linda Watson**, Associate

Dean and Director of the Claude Moore Health Sciences Library, University of Virginia.

Christie Degener, Assistant Head of Resources Management, Health Sciences Library, University of North Carolina at Chapel Hill.

NLM UPDATE

Betsy Humphreys, Associate Director for Library Operations and Assistant Director for Health Services Research Information, NLM will present the NLM Update.

Apply Today! HLS/MLA Professional Development Grant for Hospital and Clinical Librarians

Application Deadline: February 1, 2005

Are you looking for funding to attend a meeting, further your professional education, or conduct research?

The **HSL/MLA Professional Development Grant** is designed to support participation in professional programs or scientific research.

The grants help librarians in hospitals and other clinical care settings to develop and acquire knowledge and skills as described in *Platform for Change* (MLA's Educational Policy Statement) and *Using Scientific Evidence to Improve Information Practice* (MLA's Research Policy Statement.)

For further information and an application, contact Lisa Fried (312) 419-9094, Ext. 28, or email at mlapd2@mlahq.org

**HLS / MLA
PROFESSIONAL
DEVELOPMENT GRANT
AVAILABLE**

Hospital and clinical librarians: Are you seeking funding to attend a meeting, further your professional education or conduct research? The HLS/MLA Professional Development Grant is intended to encourage participation in professional programs or to support reimbursement for expenses incurred in conducting scientific research; to aid librarians working in hospitals and other clinical care institutions in developing and acquiring knowledge and skills delineated in *Platform for Change* (MLA's Educational Policy Statement) and *Using Scientific Evidence to Improve Information Practice* (MLA's Research Policy Statement).

The deadline for the next grant award is February 1, 2005. Up to \$800.00 is available to the recipient.

Further information including application forms and eligibility is available at

http://mlanet.org/pdf/grants/hlsapp_2002_1112.pdf

For more information, please contact Lisa Fried (312) 419-9094, Ext. 28 or email at mlapd2@mlahq.org
